### STEP-BY-STEP INSTRUCTIONS

- 1) Apply a small amount of the Montage Touch Up Stain on a cloth or sponge and rub it into the area. Make sure to rub oil into the floor until the area is uniform.
- 2) Wipe off the excess Touch Up Stain with a soft cloth until the repair looks uniform and make sure the stain blends in with the rest of the floor
- 3) Leave Touch Up Stain to dry for 1 hour
- 4) Then apply a small amount of the WOCA Master-Floor Oil with a cloth and rub it into the area
- 5) Leave Master Oil to dry over night
- 6) After 1 week the surface is fully hardened
- 7) Then continue routine cleaning with WOCA Oil-Refresher as per the recommended Care & Maintenance Instructions
