

PREMIUM ENGINEERED WATERPROOF LUXURY VINYL FLOORS

AQUA SENSE[™] 2

GENERATION

AquaSense Generation 2 is a premium engineered waterproof Luxury Vinyl floor. Inspired by the beauty and day-to-day living of the City of New York we offer realistic hardwood grain styles and commercial-grade durability. Aside from its beauty and durability, AquaSense was made to be 100% waterproof, simple to install, and extra easy to clean.

Made Strong To Last

AquaSense Generation 2, crafted to prevent everyday mishaps and the ability to keep its beauty throughout time. Its 100% waterproof polymer makes it strong and helps keep out moisture. We attached a premium foam underlayment to keep floors quiet. The surface has a ceramic bead finish that protects against scuffs, scratches, and stains. Easy to clean and it withstands high traffic.

CERAMIC BEAD

- Protects Against Scuffs, Scratches & Stains
- Provides Easy Cleaning
- Rated for Commercial Traffic

AUTHENTIC VISUALS & TEXTURES

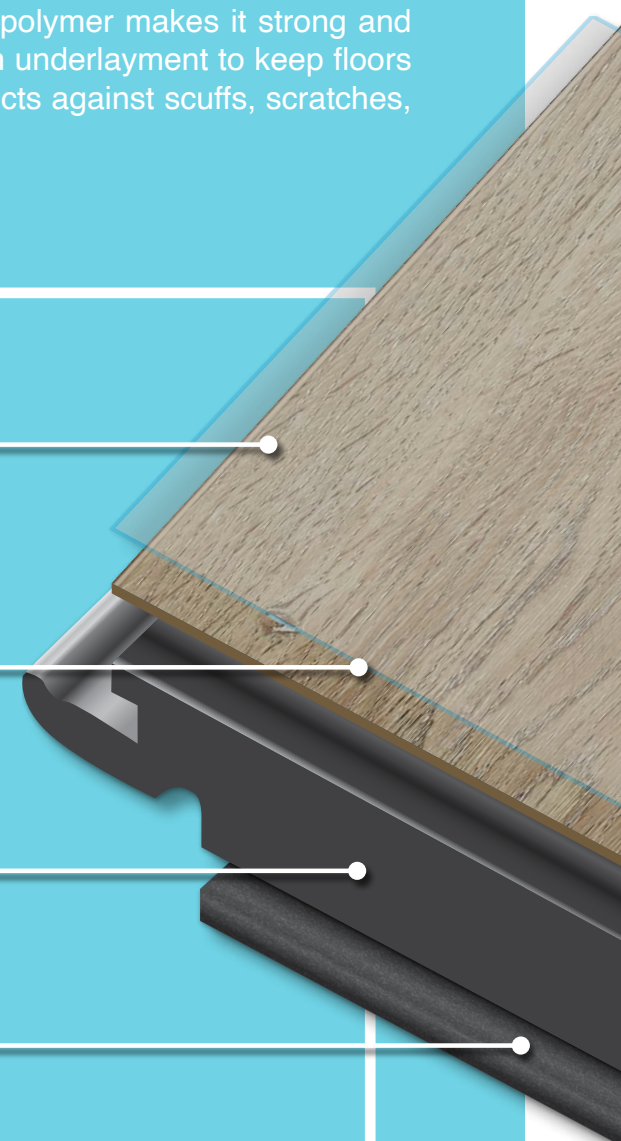

- Realistic Embossing Indistinguishable from Real Hardwood
- High Definition Decors & Rich Surface Textures with Enhanced Bevels

WATERPROOF SOLID POLYMER CORE

- Eliminates Sub-Floor Telegraphing
- Stable & Will Not Expand or Contract Under Normal Conditions
- Longer Transition Runs

ATTACHED PREMIUM IXPE FOAM UNDERLAYMENT

- Sound Absorption for a Quieter Environment
- Provides Warmth & Comfort Under Foot

WATERPROOF

Having a wood floor can be very difficult to manage. The problem of keeping up and cleaning after everyday mishaps can be very time-consuming and sometimes does not get done, especially when your life is on the go.

AquaSense Generation 2 solves all of those problems. Over the years we have developed technology to make a strong floor with both a premium core and premium surface.

We gave the AquaSense Generation 2 a core that eliminates sub-floor telegraphing. It stays stable throughout the entire year without expanding or contracting in those times of weather changes.

The best part about our floors is that they can go in every room, such as your kitchen or bathroom.

KID & PET FRIENDLY

AquaSense Generation 2 is spill-proof, which means if kids spill bowls of cereal across the kitchen floor or splash around in the bathtub, this flooring can hold up. Its surface is also resistant to mold and prohibits the growth of bacteria.

It's also great for toddlers still learning balance, offering a soft material whenever they take a tumble. We offer a variety of patterns, colors, and styles that are indistinguishable from hardwood.
