Premium HydroShield Acoustical Pad

Impervious is crafted to prevent everyday mishaps and the ability to keep its beauty throughout time. Its waterproof polymer makes it strong and helps keep out moisture. Impervious comes with a NanoShield protection layer to protect against scuffs and keep out topical water for up to 72 hours. It also has a premium Hydroshield Acoustic pad attached to keep floors quiet.

Color: Lorie

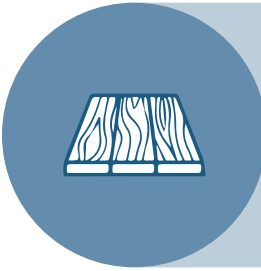

Benefits

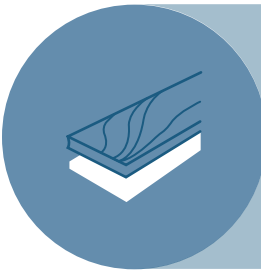

WATERPROOF
Up to 72 Hours Waterproof protection from everyday spills and accidents.

NANOSHIELD PROTECTION
Superior finish that is resistant to daily foot traffic and any active lifestyle. Protects against pet stains and water spills.

DIMENSIONAL STABILITY
Our innovative core technology gives you the most stable engineered hardwood floors with minimal movement during summer and winter seasons.

HYDROSHIELD ACOUSTICAL PAD
Sound reduction pad provides comfort underneath your feet for any active lifestyle. Easy and cost efficient installation with premium HydroShield pad attached.

REAL WOOD
Luxury of real wood floors with the benefits of a waterproof and durable long lasting floor.

EASY CLEANING
You can wet mop your floors worry free.

Water-Proof

Having a wood floor can be hard to maintain. The problem of keeping up and cleaning after everyday mishaps can be time-consuming and sometimes does not get done, especially when your life is on the go.

With the active lifestyle in mind, we made Impervious with a premium core and premium surface to provide waterproof protection for up to 72 hours.

NanoShield Protection

The NanoShield protection surface helps keep out water for up to 72 hours and also protects against scuffs. In addition, we added a tightly sealed locking system to prevent liquids from getting into the core. The best part about our floors is that they can go in every room, such as your kitchen and family rooms.

HydroShield Acoustical Pad

The HydroShield acoustical pad is attached as a bottom layer to help control sound. The Pad helps improve in-room sound quality and keeps sound in the room. It also helps keep the floors comfortable and warm.
