# THERMAL COLOR TREATED

Thermal Color Treated Hardwood is an all natural heat process that enhances the stability and natural patina of the hardwood! This treatment is eco-friendly and makes the wood 70% less susceptible to moisture and humidity changes. Thermal Color Treated Hardwood is more stable than traditional hardwood products.

**THERMAL COLOR  
SURFACE LAYER**  
  
Color penetrates  
through Surface  
  

- Rich dual tone color
- Easier to repair and touch up
- Enhanced stability and durability

**Traditional Surface  
Layer**  
  
Color only applied to  
surface  

# MADE TO LAST A LIFETIME

An Organic Eco-Friendly UV Oil Finish penetrates through the wood pores to enhance the rich elegant patina and creates a long-lasting durable easy to maintain floor. All colors are backed by our highest industry-leading warranties.

## DEEP RICH COLOR TONES

Selected styles in the Montage line are produced by a unique thermal process to achieve the deep rich color visuals. Wood is a natural product and each plank will react differently to this process resulting in color variations. This kind of variation helps display the true wood characters and is one of the most desired attributes in hardwood flooring. This unique process highlights light to dark color tones that complement each other in your home.

Each style in the Montage line is labeled with one of the ratings on the left to help you select the perfect flooring that fits your design style.

V4  
SUBSTANTIAL COLOR VARIATION

Colors can vary extensively from plank to plank. Interior designers love this kind of flooring due to the high contrast effect it delivers. V4 rated products are best installed in living rooms for impressing guests.

# BAROQUE

Naturally distressed planks are rich in character by highlighting accented knots and hand-hewn textures. These stylish designs enhance the beauty of wood grain to create a truly original and inspiring floor. Baroque age crafted floors bring warmth and vintage style fit beautifully for any room in your home.

Montage European Oak Floors are finished with a penetrating UV oil finish that is designed to protect your new beautiful hardwood floors without a top surface film. This allows the wood to give and take moisture in harmony with the environment around it. It also provides a dirt and wear resistant surface on the floor allowing it to last a lifetime without the need to ever re-sand.

### AFTER INSTALLATION

Must clean floor after installation prior to covering to prevent dirt and construction residue from the jobsite, use paper or cardboard. **DO NOT** tape paper or cardboard directly to the floor. **DO NOT** use any tape including Blue Tape or Mineral Spirits when installing oiled floors.

### INITIAL CLEANING (ONLY USE WOCA CLEANING PRODUCT)

1

#### Vacuum

Clean dust and dirt off the floor with a soft brush vacuum cleaner.

2

#### Mop with

#### WOCA Oil Refresher Soap

Mix 1 cup of **WOCA** Refresher Concentrate with 5 quarts of water in a bucket. Mop the entire floor with this mixture using a cloth mop.\*

3

#### Let it Dry

Let the floor dry for **4 to 6 hours** before allowing foot traffic and placing rugs.

#### MATRIX

\*Mop the floor gently using a wrung cloth mop. The mop should be damp, not wet. **EXCESS MOISTURE CAN DAMAGE THE FLOOR.**

Use WOCA Oil Refresher Soap White on white floors and WOCA Oil Refresher Soap Natural on all other floors. This is the only product you should use on these floors. Please refer to After-Care Matrix. (PLEASE CONTACT THE MANUFACTURER FOR FURTHER INSTRUCTIONS)

**PLEASE WATCH THE VIDEO TO LEARN HOW TO APPLY WOCA OIL REFRESHER SOAP.**

Please refer to demo video QR Code for guidelines or visit [woodcareusa.com/video](http://woodcareusa.com/video)

### ROUTINE CLEANING

Perform Bi-Monthly or Monthly cleaning by vacuuming/sweeping and then spraying WOCA Oil Refresher Soap Spray onto the floor. Spread evenly with a clean cloth mop to clean the dirt. Let the floor dry for 1 to 2 hours before allowing foot traffic and placing rugs.

*NOTE:* Overuse of WOCA OIL Refreshing Soap may become sticky overtime on the surface of the floor. This can also lead to abnormal collection of dirt and/or gloss variations.

### NOURISH YOUR FLOORS

Oil finished floors should never need to be re-sanded. Traffic patterns or wear areas can be easily reduced by applying the WOCA Intensive Wood Cleaner followed by the WOCA Maintenance Oil Diamond Active. Typically in a residential application this is anywhere from 3-5 years after initial use of the floor. WOCA Maintenance Oil Diamond Active provides the floor with additional wearing properties. Use WOCA Maintenance Oil Diamond Active White on white oiled floors and Maintenance Oil Diamond Active Natural on all other floors. Follow directions on the label or refer to [www.wocausa.com](http://www.wocausa.com) for production application instructions.

#### COMMERCIAL APPLICATIONS

Perform daily cleaning by vacuuming and then damp mopping with WOCA Master Soap if needed. Mix 1 cup of WOCA Master Soap Concentrate with 10 quarts of water in a bucket. Damp mop the entire floor with this mixture using a cloth mop. In addition to the Master Soap for regular cleaning, commercial spaces benefit from a monthly cleaning with WOCA Oil Refreshing Soap. Mix 1 cup of WOCA Refresher Concentrate with 5 quarts of water in a bucket.

Please contact a WOCA specialist via phone 800.242.8160 or via email [sales@wocausa.com](mailto:sales@wocausa.com) for commercial applications to provide proper cleaning regime based on the foot traffic.

### QUICK TIPS & TRICKS

#### DO

- USE **WOCA** OIL REFRESHER SOAP FOR CLEANING FLOOR
- PLACE FELT PROTECTOR ON MOVING FURNITURE
- PLACE DOOR MAT IN FRONT OF MAIN ENTRANCE
- PROTECT FLOORING BY COVERING WALL TO WALL DURING CONSTRUCTION WITH 3" OVERLAP TO
- AVOID PAINT, SPILLS, SHEET ROCK DUST, ETC.
- MAKE SURE ANY ADHESIVE IS IMMEDIATELY WIPED OFF PRIOR TO DRYING

#### DON'T

- DON'T USE ANY TAPE ON THE FLOOR INCLUDING BLUE TAPE
- DON'T USE MINERAL SPIRITS
- DON'T LEAVE SPILLS, WIPE UP IMMEDIATELY

Proud Members of:

The color variation ratings on this brochure serve only as guides. Wood is a natural material containing distinctive differences in color, texture and grain. The differences caused by nature create the warmth, beauty and uniqueness of each hardwood floor. Room scenes and actual hardwood floor samples are intended as visual guides and not as the exact representation of the hardwood floors. Before you install any flooring product, we recommend that you rack out a box or two to verify that the product you have ordered is within the acceptable color range and fits your design style. Color and grade of all natural products must be inspected and approved at time of installation. Any flooring installed will be considered acceptable and no claims will be allowed based on visible appearance after installation.
